We are successfully operating for more than 180 years across 27 locations worldwide and offer our employees the chance to be a part of our success. Our employees are our most valuable asset, we are proud of our unique culture that fosters entrepreneurship and is fueled by a high team spirit and the positive attitude of each individual. Join our international team and be part of the next chapter of the J. Safra Sarasin Group.

Your role

As Business Analyst Identity Access Management (IAM) for 12-18 months at Bank J. Safra Sarasin you actively drive the role creation and role modelling across the Group. You interact with key stakeholders such as IT, IT Security and Business to achieve your results. You have an interest and/or experience in role mining, technical systems and access right data. You interact with many different stakeholders across the Group at the same time and manage the role creation and role mining process. This is a temporary role for 12-18 months. A transition into a fixed position is possible.

Your responsibilities

- Responsibility for the role creation and role mining across the Group according to the IAM roadmap
- Clean up of existing right allocations
- Identification and document segregation of duty scenarios

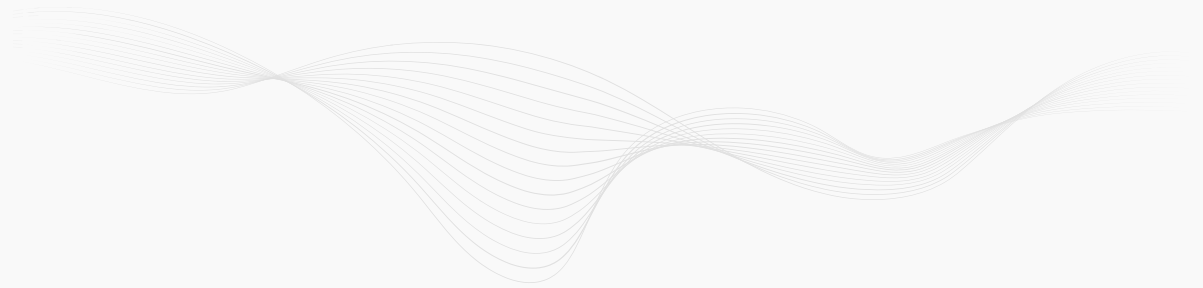

- Further support with the implementation of the IAM roadmap as required

Your profile

- Higher education (university / FH) in business/finance or other relevant field
- Several years of practical experience in the field of IAM of Information Security
- Experience in working on IAM projects in complex system landscapes is an advantage
- Knowledge of the banking business and Avaloq is an advantage
- Strong analytical and problem solving skills
- Ability to work with various stakeholder as well as excellent communication and presentation skills
- Organizational skills
- Fluency in English
