Transform Moments into Memories

Are you ready to merge creativity with technology? Do you have a passion for elevating the ifolor iOS mobile app, working alongside product managers, marketing, and UX experts to boost the value we offer? Could you see yourself designing and launching new features, expertly addressing bugs, and enhancing our application deployment process? Are you skilled in crafting automated tests? Then continue and learn more about the role.

Why Choose ifolor?

- **Global Team:** Immerse yourself in an international working environment, surrounded by talented individuals facing exciting

challenges.

- **Community & Enga[...]** [...]activities and events that strengthen bonds and spark innovation.

- **Impactful Product**: Contribute to a product that's not only beloved by customers but also a household name in Switzerland.

- **Work-Life Harmony**: Embrace the flexibility to work in a way that suits you best, from the serenity of your home or amidst the buzz of our contemporary Zurich office. Experience a work culture that's as refreshing as it is rewarding

- **Rewarding Package**: Your dedication and creativity are the backbone of our success. We celebrate this with an attractive employment package that appreciates your commitment to excellence

Your Role With Us

As Senior iOS Engineer, you'll:

- **Innovate and Implement**: Spearhead the development of new features and enhancements, ensuring our iOS mobile app remains at the forefront of technology and user experience

- **Quality Assurance**: Leverage your skills in Swift, SwiftUI and UIKit to not only fix bugs but also maintain and elevate the application's deployment process

- **Test and Secure**: Craft automated tests and evolve our monitoring/alerting systems, guaranteeing the reliability and security of our application

Who You Are

- **Adaptable Innovator**: You're comfortable in a dynamic, KPI-driven environment, possess a growth mindset, and are naturally curious
- **Change Champion**: Open to new challenges, you're ready to challenge the status quo and bring fresh, solution-oriented ideas to the table
- **Technical Expert**: Your expertise shines in **Swift**, **SwiftUI** and **UIKit**, with a solid track record in Objective-C and competence with CoreData.You are familiar with **unit** testing frameworks like XCTest, and **CI/CD pipelines**, ideally Azure DevOps
- **Language proficiency**: Being fluent in **English, German** is a **plus**, prepared to connect with our international team and make a lasting impact

At ifolor, we're dedicated to bringing life's most beautiful moments into the spotlight. If you're poised to make a significant impact with your technical excellence and lead the way in Switzerland and Finland, we're eager to embark on this journey with you. Let's redefine the celebration of memories, making every moment worth more.
